Summary
<p>I am currently a Professor of Health Policy and Management and Head of Department of Health Management, Policy and Economics at School of Public Health (SPH), Tehran University of Medical Sciences (TUMS). Additionally, I am the director of the Master of Public Health (MPH) programs offered by the SPH. <i>I was appointed as the Director of Iran's National Institute of Health Research (NIHR) in 2020, a role that currently takes a significant proportion of my time and effort.</i></p> <p>Moreover; I am the chairman of the committee for Economics of Education at Iran's Ministry of Health and Medical Education (MoHME); the chairman of the committee for Health Policy and Systems Research at Iran's National Institute for Medical Sciences Research (NIMAD); a member of Iran National Academy of Medical Sciences; a member of the advisory committee for the Expanded Program on Immunization (EPI), the National Malaria Elimination Program, and the National Scientific Committee for COVID-19 at Iran's MoHME.</p> <p>I have served as a longstanding member of the advisory committees at the Eastern Mediterranean Region (EMR) of the World Health Organization (WHO); including the advisory committees for Patient Safety Friendly Hospitals, Health System Governance and Evidence Informed Policymaking.</p> <p>I have been elected as the vice-president of the Iranian Public Health Association and also serve as a board member of the Iran Hospital Management Association. Additionally, I hold a professorship at the Department of Pharmacoeconomics and Management, School of Pharmacy, TUMS.</p> <p>I have served as an Associate Editor for 'Hakim Health Systems Research Journal' and the Editorial Board member for 'Hospital Journal' and 'Health Technology Assessment Journal'.</p> <p>Previously, I was the Dean of School of Public Health and also the Founding Head of the Department of Global Health and Public Policy at TUMS; Director of the Center for Iran Scientific Medical Journals at Iran's MoHME; a Visiting Lecturer at York University; a Search Coordinator for the Cochrane Wounds Group; and a Research Fellow in Health Services Research at the NHS (National Health Service) Center for Reviews and Dissemination in York, UK. After completing my MD degree from TUMS in 1998, I practiced as a general practitioner within Iran's Primary Healthcare System. Building upon this foundational medical knowledge, I could award a scholarship from Iran MoHME to pursue a PhD in Health Policy and Management at the University of York in the United Kingdom, successfully completing the program in 2006.</p> <p>Throughout my career, I have been actively involved in diverse endeavors aimed at advancing public and global health. These include education, research, policy analysis, communication, consultation services, and various other activities. Notably, I have supervised and mentored over 100 MSc, MPH, and PhD students from diverse nations. Additionally, I have published extensively, with more than 300 papers appearing in peer-reviewed</p>

journals. I have also established extensive international collaborations with universities, academic centers, and influential UN agencies such as the WHO. In my role as the Director of Iran's NIHR, I have played a pivotal role in implementing national programs aimed at enhancing public health within Iran. Under my leadership, the NIHR has emerged as a key player in evidence-informed policymaking and effective management of COVID-19 epidemic in the country. By prioritizing rigorous research and informed decision-making, we strive to improve health outcomes and ensure the well-being of the population.

During my tenure as the Dean of the SPH at TUMS, I made substantial contributions to expanding the school's educational, research, and international activities. Specifically, I played a crucial role in the development and establishment of various national and international programs. These include programs in Health Economics, Health Policy, Health Technology Assessment and Health Services Management. I have been actively involved in implementing an international diploma course focused on malaria program planning and management. This collaborative effort between the SPH, WHO, and Iran's MoHME has successfully conducted 15 iterations of the program. The course attracted participants from around the world, particularly the EMR, contributing to enhanced capacity and expertise in addressing this significant public health challenge. Furthermore, during my management in the SPH, the school has expanded a strong network of laboratories that currently serve as an integrated part of Iran's National Health Network and Iran CDC. Notably, these laboratories, including the Leishmaniasis, Malaria, and Virology labs, function as reference and national labs for the country and work in strong collaboration with the WHO.
